How can I hide from HawkEye 5300 tracking device?

2020/04/07

Hello Priscilla! HawkEye 5300 is the most advanced tracking solution of Blue Sky Network, the official Iridium Solution Provider. If you still have not heard of them then you should know that Iridium is the Low Earth Orbit (LEO) satellite network that consists of 66 satellites. It is planned that in the nearest future they will increase their network to 77 satellites because Iridium has number 77 in the periodic table. Their most well-known product is Iridium Extreme satellite phone. Blue Sky Network HawkEye 5300 is a tracking device that uses SIRFstarIII GPS chip (like that in Motorola PDA MC-75), Iridium satellite network and GSM location triangulation for tracking purposes. They are calling this way of object tracking the dual satellite and cellular mode. HawkEye 5300 may be placed in any vehicle, boat, yacht, plane or other mean of transportation to track it and have the two-way communication in there. With the help of such complex tracking solution your location will be visible anywhere on the Earth, be it desert, jungles, ocean or sky. Location will be tracked 100% of time. If you need that - great! Personally I don't know better solution for such purpose. But if you are afraid that someone might use it against you and discover your location when you don't want that - you need to block HawkEye 5300 tracking device and don't let anyone use Blue Sky Network tracking solution against you.

gsm jammer aliexpress

Due to the rising number of mobile phone subscribers, Free Shipping on Qualified Orders. In our model the predator's characteristics are common knowledge.
